DETAILED ACTION

Claim Objections

Claim 28 is objected to because of the following informalities: line 3 and line 4 of the claim end with ":", the lines should end with ";". Appropriate correction is required.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 28 is rejected under 35 U.S.C. 102(b) as being anticipated by BOUDREAU et al (US 5,369,681).

Regarding claim 28, BOUDREAU discloses a method of prioritizing a plurality of service systems in a wireless communication system (abstract) comprising:

determining a reference location (abstract; 204-Figure 3a);

setting a centerpoint of a coverage area which the service systems [base stations] have (B1-B9 Figure 1; column 8:lines 37-53);

prioritizing the plurality of service systems based on the reference location and center point (abstract; column 5:lines 31-55).
